JERSEY CITY MUNICIPAL UTILITIES AUTHORITY
555 ROUTE 440
JERSEY CITY, NJ 07305

RAIN BARREL PURCHASE PROGRAM

The Jersey City Municipal Utilities Authority is offering rain barrels for purchase to Jersey City residents at the deeply discounted price of \$25 a barrel. Residents must agree to make a good faith effort to keep the rain barrels for at least 3 years from the date of purchase and agree to not use collected water for potable use. Potable is defined as suitable for drinking. It is the responsibility of the tenant to get the permission of the property owner to install a rain barrel. Residents agree to provide annual maintenance of the rain barrel and all components.

Rain barrels must be installed with a spigot and hose, overflow tube (directs overflow away from foundation), vector control (mosquito-proof screen under the lid), and a lid to seal the tank. These items are included in the rain barrel kit.

Residents can pick up the rain barrels at the JCMUA located at 555 Route 440, Jersey City, NJ 07305 on Tuesdays and Thursdays between 9 am to 2 pm. Please your completed application along with proof of residency and a check or money order for \$25 made out to the JCMUA.
