

# Getting Started With

# OpenTreeMap opentreemap CLOUD

---

## New User Sign-up Steps

1. Go to [opentreemap.org](https://opentreemap.org) and create a new user account by clicking on “Register” OR download the App (<https://www.opentreemap.org/mobile/>) on your smartphone and register there.
2. Verify your email address by clicking on the link sent to you by OpenTreeMap.
3. After you verify your email, go back to OpenTreeMap on your phone and if you are in Jersey City, you should see the Jersey City Tree Map. If you are on your computer, you can view the map [here](#).
4. Download the [Leafsnap](#) (iOS) or [Virginia Tech Tree ID](#) (Android) mobile app to your phone to help you identify trees you’re mapping.
5. You can now “Add A Tree” to the Jersey City Tree Map and get mapping!

Thank you, and happy tree mapping!
